

CIRCULAR 28: SURVEY FOR SERVICES ON THE ESTATE

The Owners Association in collaboration with the Elisenheim Project Development Company is continuously looking to improve the lifestyle experience for residents on the Estate.

The Estate is growing rapidly and the EOA thought it appropriate that members should be given the opportunity to inform the EOA of the type of services that residents would deem to be a priority in the immediate future.

In order to determine the demand from residents we have prepared a simple survey online that will not take more than two minutes from your time to complete but will afford us the opportunity to evaluate the information collected and to plan accordingly.

It speaks for itself that one would prefer to have all the services available but on the economies of scale this would not be possible and accordingly members and residents are kindly required to select **not more than three** services from the list that they would prefer to be available on the Estate in the near future.

In order to participate in the survey members must click on the following link and follow instructions:

<https://www.surveymonkey.com/r/Elisenheimsurvey>

Please make sure of the choice(s) you make because once you have completed the survey you will not be able to return to the survey.

Your co-operation will be much appreciated.

Kind Regards

Trustees
