

OFFICIAL MANAGING AGENT FOR THE ELISENHEIM HOME OWNERS ASSOCIATION

28 May 2015

Dear all,

URGENT NOTIFICATION:

CIRCULAR 12.3 – INTERRUPTION OF WATER SUPPLY FROM VON BACH TO WINDHOEK

WINDHOEK – 28 May 2015: The City of Windhoek hereby informs the residents that there is water supply interruption from Von Bach to Windhoek. The interruption is caused by damage to the main water supply pipe by a contractor upgrading the road between Windhoek and Okapuka farm late yesterday 27 May 2015.

NamWater has indicated that the normal water supply from Von Bach to the City is expected to be restored by 12:00 tomorrow Friday 29 May 2015. Windhoek residents should therefore not panic, as the City reservoirs are currently about 60% full on average. However, since Von Bach supply is our main water source, all residence must immediately adhere to water saving measures to avoid a crisis.

As a result, the following activities are banned with immediate effects:

- Watering of gardens;
- Hosing of pavement;
- Washing of cars with a hose pipe;
- All customers should reduce their water consumption to essential use only.

Residents are advised NOT to fill up containers, because that will only result in the reservoirs to be empty. The only area that will not have water is Brakwater which is directly linked to the supply pipe from Von Bach.

We are counting on our residents' cooperation in saving water.
