IMPORTANT THINGS TO KNOW

BUY NAMIBIAN FOR NAMIBIA

OUR PRODUCT RANGE – CEMENT FLOOR

Always follow the instructions on the product label for best results.

Preparation and correct product application are important.

There are no short-cuts. Always follow the correct drying time recommendations.

Keep the room well ventilated when using an oil-based/solvent based paint.

HANDY PAINTING TIPS

Clean your brushes used for floor paint with Mineral Turpentine.

For heavy traffic areas, e.g. garage floors, use NEO Epoxy floor paint.

Use the correct safety equipment for your own safety for e.g. safety glasses, gloves and protective jacket and pants.

For technical questions, please phone our technical helpline for support.

start

finish

1
Previously painted floors: Remove all loose peeling and blistering paint by means of scraping or sanding the existing coating to matte.

Things You Will Need

Hamilton's Sand It Multi Purpose Roll

Hamilton's Scraper

2
Make sure the surface is dry, solid and free from dust, oil or chemicals.

Sweep the floor properly – do not wash with water.

For oil or chemicals, please phone our Technical helpline for assistance.

Things You Will Need

Hamilton's Deluxe Wooden Broom

3
Check the floor for cracks and holes and apply **NEO Bonding Liquid** in all the cavities

Apply **NEO Repair Paste** to the cracks and scrape off excess paste with a utility scraper.

Larger holes must be filled with 2mm layers until the cracks are filled.

Let each layer dry for 1 hour.

Use a small piece of 220 grit sandpaper to smooth the areas flush with surface.

Things You Will Need

NEO Bonding Liquid

NEO Repair Paste

Hamilton's Stainless Steel Scraper 50mm

4
Apply a coat of **NEO Floor Paint** diluted with 10% **NEO Mineral Turpentine** using a paint roller and allow 24 hours drying time.

Apply a second coat **NEO Floor Paint** undiluted and allow 24 hours drying time.

NOTE: Instructions only applicable to medium traffic areas.

This process not suitable for garage or industrial floors.

Things You Will Need

NEO Mineral Turpentine

NEO Floor Paint

Extension pole

Hamilton's Original Sheepskin Roller 225mm
