

IMPORTANT THINGS TO KNOW

OUR PRODUCT RANGE - METAL WORK

HOW TO PAINT METAL WORK

Always follow the instructions on the product label for best results.

Preparation and correct product application are important.

There are no short-cuts. Always follow the correct drying time recommendations.

Keep the room well ventilated when using an oil-based/solvent based paint.

HANDY PAINTING TIPS

Clean your equipment used for PVA with soapy water after use. Work the bristles with your hand.

Clean your equipment used for oil-based paint with Mineral Turpentine after use.

Use correct safety equipment for your own protection e.g. safety glasses, gloves and protective clothing.

For technical questions, please phone our technical helpline for support.

Handy tips on how to paint metal surfaces and which products to use

start

Painting metal surfaces might seem difficult, but by using the correct tools and products, it's easy to achieve great results.

A coat of excellence

1

Sand previously painted surfaces to matt and remove all the rust.

Things You Will Need

Hamilton's Wet or Dry Paper Sheets

2

Make sure the metal surface is dry and free from dust, oil and chemicals.

For dust, swipe with a clean cloth – do not wash.

For oil, fat or grease contamination scrub down with **NEO Metal Conditioner**.

Allow to react for 15 min and rinse properly with a soft nylon brush and clean water.

Things You Will Need

Hamilton's Professional 75mm

3

Within 30 min to 1 hour after cleaning, apply one generous coat of **NEO Corrotec** by means of a brush or spray application. In coastal conditions, 2 coats of **NEO Corrotec** are required.

If the surface was previously painted only the bare spots need to be painted.

Things You Will Need

Hamilton's Professional 25mm

4

Apply one coat **NEO Universal Undercoat** over entire surface and let dry for 6 hours.

Things You Will Need

Hamilton's Professional 50mm

5

Finish with 2 coats of any NEO Finishing paints of your choice.

Choose from NEO Dur, NEO Multi Dur or Aurora; Or NEO High Gloss and NEO Silk enamel finishing paints.

Things You Will Need

Hamilton's Specialist 3x10 Brush

finish
